# QP2H Centrifugal Pump

The QP2H Centrifugal Pump is the newest version of the popular Multiquip 2-inch pump. Replacing the QP204 series, the QP2H offers:

- **Better performance** with more flow and head.
- **Increased diameter pipe frame** — now at 0.875" diameter. This provides more gripping surface when lifting the pump.
- **1" diameter fill and drain ports**, with plastic plugs to avoid casing damage.
- **Strengthened pump casing for longer life** and improved durability. A six-bolt front casing plus additional ribs added to the back casing provide increased strength.
- **Silicon/silicon mechanical seal.**
- **Honda and Robin EX gasoline engine options.**
- **Cast iron impeller and volute** for long-lasting performance.
