

2010 TECHNICAL SERVICE SCHOOLS

Let Multiquip improve your service skills.

Attendance is limited to 12 per class so reserve your spot today!

Do you need to learn more about the Multiquip products you're working on? Do you need to improve your troubleshooting skills? Are you having trouble navigating through wiring schematics? Let Multiquip's factory trained professionals help you with the industry's best and most complete service schools.

Gets your hands dirty and learn how to apply the latest service and troubleshooting techniques on the machines you see everyday. Classes are available covering our standard product range and specialized classes are offered focusing on power generation or concrete finishing machines. Attendees will gain the knowledge, proficiency and skills needed to quickly and efficiently repair equipment.

Our interactive classes are weeklong sessions held at our Carson, CA, Lewisville, Texas and Boise, Idaho locations.
