

Optional Wireless Remote Control for Mayco Concrete Pumps

Now you can add a wireless remote control to your Mayco LS and C30HDGA pumps.

Standard features

Controls — Remotely adjust pumping volume and access engine on/off and emergency stop functions. Controls for LS-Series pumps allow operator to reverse pumping direction.

Excellent mobility — Operator benefits from line-of-sight operating range of up to 300 feet.

LED Indicator Lights — Indicate battery condition and transmitter connection status.

Rugged construction — Heavy duty reinforced thermoplastic case and rubber boot provides impact protection. Includes belt clip for convenience.

Compact size — Length 5" x Width 2⁵/₈" x Height 2"

Battery type — Uses two AA 1.5 volt alkaline batteries.

LS-Series transmitter shown actual size. Features may vary.

For Mayco LS Series Concrete Pumps

LS Series Transmitter Frequency: 2.4 to 2.48 GHz

EM98268C	Wireless set complete — Transmitter, receiver, antenna
EM98268TC	Transmitter only
EM98268RC	Receiver only
EM98268A	Antenna only LS and C30HDGA

For Mayco C30HDGA Concrete Pumps

C30HDGA Transmitter Frequency 2.4 to 2.48 GHz.

EM98215C24	Wireless set complete – Transmitter, receiver, antenna
EM98215CT24	Transmitter only
EM98215RC24	Receiver only
EM98268A	Antenna only LS and C30HDGA
