

# MULTIQUIP introduces a powerful hand-carry High Pressure Centrifugal Dewatering Pump

The **Multiquip QP15HP High Pressure Pump** - is a compact, portable gasoline powered centrifugal pump that provides pin-point delivery of water at very high pressure to support: water jetting, equipment wash-down, irrigation, and stand-by fire fighting support.

**ISO 9001:2008 Certified - Issue No.: Q048-01E**

*The perfect lightweight, portable high pressure fire fighting pump*

Strainer Included

## QP15HP

**1.5" Suction/Discharge • 56 GPM Flow  
197' Head • 86 Psi • Honda GHX50 2.1HP**

- **Trusted Pump Design** - recognized throughout the construction industry, and operating in the most extreme conditions, Multiquip Pumps have proven their value for over 35 years.
- **Immediate Response** - specially engineered die-cast aluminum casings ensure the **fastest priming times**.
- **Powerful Performance in a 22 Lb. Package** - this ultra-compact pump with carry handle is easy to transport and quick to deliver high psi water jetting.
- **Trusted Power** - HONDA GHX50 4-cycle gasoline engine.
- **Stable Operations** - pump is mounted to a stability assembly with four anti-vib absorbers.
- **Easy remove and replace** - suction and discharge ports (1.5" NPT Thread) can be exchanged in the event of thread damage.
- **Reliability** - 3-year pump end warranty.

### Accessory Options: Q/D Hose

### Accessory Options: NPT Threaded Hose

**1.5" Suction Hose  
Part: HSQ1520**

**Pump Port Q/D Male Coupler  
Part: A150A**

**1.5" Discharge Hose  
Part: HDQ1550**

**1.5" Suction Hose  
Part: HS1520**

**1.5" Discharge Hose  
Part: HD1550**

**PROVEN DEWATERING PUMPS  
POWERFUL - EFFICIENT - TRUSTED**
