PH NEUTRAL EQUIPMENT WASH

SlabArmor™ Plus Equipment Wash is unlike anything that's come before. Its patent pending proprietary chemistry is the first pH neutral product that effectively removes the built-up concrete from equipment in an environmentally responsible manner. This is NOT like other acidic products used for removing concrete, SlabArmor™ Plus Equipment Wash does not etch the machine surfaces. This product is a simple spray on, leave on, no rinse formula that allows you to spray on after the equipment has been rinsed. The equipment is then power washed after allowing the Equipment Wash to dwell and soak. Over a period of a couple of weeks you will notice that the amount of buildup on the equipment has been reduced and new buildup is not being deposited.

Reduce your operating costs while reducing your maintenance overhead. Traditional means and methods of cleaning equipment have peaks and valleys in reference to the cleanliness because of conditions out of your control on the jobsite. SlabArmor™ Plus Equipment Wash allows for easy consistent cleaning and ensures your equipment is able to perform as designed and allows for proper maintenance. It's as easy as having the operator spray their equipment down right after use.

MAINTAIN YOUR EQUIPMENT

Attain greater levels of ROI and increase overall operating efficiencies by reducing damage and wear to equipment from aggressive pounding and scraping during cleaning. Achieve results that last while reducing maintenance expenses and upkeep requirements over the life of your equipment.

EarthSmart™

MQ Whiteman Concrete Solutions are environmentally neutral compositions. Finish your job secure in the knowledge these products pose no risk to crew members or the environment. A benefit on jobs with LEED requirements.

PRIMARY APPLICATIONS

- Troweling Machines
- Concrete and Mortar Mixers
- Concrete Forms
- Hand Tools
- Precast Equipment
- Cutting and Grinding Equipment
- Screeds

FEATURES & BENEFITS

- Neutral pH
- No Rinse Formula
- No additional labor
- Concentrated
- Cost Effective
- Environmentally Responsible

PACKAGING

Item No.	Size	Gallon	Liters	Bucket Color	Product Color	Scent
SAPEW1	Jug	1	3.78	N/A	Green	Green Apple
SAPEW5	Pail	5	18.9	Gray	Green	Green Apple
SAPEW5P	Pallet	180	681.4	Gray	Green	Green Apple
		(36 x 5)				
SAPEW55	Drum	55	208	N/A	Green	Green Apple
SAPEW275	Tote	275	1041	N/A	Green	Green Apple
