High quality lighting solutions.
The GB3LED Series is the ideal solution for high quality, diffused lighting with minimal power requirements. GloBug™ LED lighting is utilized for security, emergency response, construction and special event applications.

- **Superior lighting properties** — Color consistency is near perfect, with better color rendering and overall quality
- **Impact resistant LED assembly** — Protects the lamps and is water resistant
- **Long life, low maintenance** — Up to 40,000 hours of operating life per bulb
- **Cooler lamp temperatures** obtained with LED (158 °F) allows for easier handling vs. metal halide (442 °F)
- **3-stage dimming controls** (100W, 200W and 300W)
- **Convenient operation** — Instant start and restarting; no lighting delays
- **Environmentally, economically smart** — LED reduces operating costs and CO2 emissions up to 85%
- **Flexible set-up options** — Choose either tripod or cart-mounted assembly.
- **Self-inflating balloons** — Full inflation in less than 20 seconds
- **Easy transport and storage** — vinyl carrying cases included

(Total weight: 17.5 lb.)
The GB8LED Series is the ideal lighting solution for high quality, diffused lighting where minimal power requirements are desired. This LED GloBug series best supports applications such as security, emergency response, road and indoor, and equipment mount lighting.

- **Superior lighting properties** — Color consistency is near perfect, with better color rendering and overall quality
- **Impact resistant LED assembly** — Protects the lamps and is water resistant
- **Long life, low maintenance** — Up to 40,000 hours of operating life per bulb
- **Cooler lamp temperatures** obtained with LED (158 °F) allows for easier handling vs. metal halide (442 °F)
- **Optional illuminance settings** — 3-stage dimming controls (400W, 600W and 800W)
- **Convenient operation** — Instant start and restarting; no lighting delays
- **Environmentally, economically smart** — LED reduces operating costs and CO2 emissions up to 85%
- **Flexible set-up options** — Two position tripod stand, two stage (gas assist) vertical mast assembly
- **Self-inflating balloons** — Full inflation in less than 20 seconds
- **Easy transport and storage** — vinyl carrying cases included

Also available: **GB8LEDB** — 800W LED Balloon lamp assembly (Total weight: 25 lb.)
The GB12 Series combines high quality, diffused lighting with the value of 400W metal halide lamps. This GloBug series supports security, emergency response, road work, construction, and special events.

- **Metal halide lamp** — single 400 watt lamp for excellent illumination. 3400°K pure white light
- **Minimal power** — only 4 Amps of 115V power
- **Expansive light coverage** — up to 79 feet
- **360° glare-free illumination** with standard fire retardant (UL94 VTM Standard Test) balloon
- **Universally adaptable to all AC power supplies** — accepts 50/60Hz, 100-240V
- **Reflective balloon top** — redirects light towards work area
- **Self-inflating balloons** are easy to install and inflate in less than 20 seconds
- **Three-stage mast** — extends up to 10’ 5”
- **Aluminum tripod stand model** provides three outriggers for solid stabilization
- **Optional message strip** available
- **Easy transport and storage** — vinyl carrying cases included

*Also available: GB12BP — 400W Metal Halide Balloon lamp assembly (Total weight: 17 lb.)*
The GBW Series is a trusted solution for superior diffused lighting where high lumen output requirements and metal halide value are required. This GloBug series is ideal for security, emergency response, road and indoor, and equipment mount lighting.

- **Metal Halide lamp** — single 1000 watt lamp for excellent illumination. 3400°K pure white light
- **Low power requirements** — only 9.3 Amps of 115V power
- **Excellent coverage up to 150 feet**

Also available: **GBP** — 1000W Metal Halide Balloon lamp assembly (Total weight: 23 lb.)
The GB2000 easily connects to the electrical and ballast systems of most conventional light towers to provide exceptional glare-free lighting.

- 2000 Watt 360° glare-free diffused lighting system
- Seamlessly works with the existing light tower electrical systems*
- Integrated fan inside lamp housing instantly inflates balloon
- Quick disconnect electrical fittings
- Excellent light coverage of over 240 feet
- Quick, easy set-up and transportation
- Meets DOT diffused lighting specifications
- Comes with T-Bar mounting bracket and all necessary hardware
- Balloon is washable and repairable

Two conventional lamps may still be operated with the GB2000.

Model GB2000
Assembly includes:
(1) 2000W Balloon Lamp Assembly
(1) Universal Bracket Assembly
(1) Electrical Junction Box and connection hardware

| Total Weight | 31 lb. |
| Wind Limits | 40 MPH |

**Lamp Assembly**

| Balloon (inflated) | 34.5” x 35.5” x 40.5” |
| Lamp (W) | 2 x 1000W Metal Halide |
| Lumens | 220,000 |
| Voltage (V) | 238-268 |
| Current (A) | 8.2A @ 240V |
| Hertz (Hz) | 50-60 |
| Min. Generator | 3200 W |

*Designed for Multiquip Light Towers. Contact technical support for assistance with other brands.
The GB4000 provides powerful glare-free lighting. The system provides diffused illuminance that eliminates shadows, improves operator job awareness, and curtails light glare to on-coming automotive traffic.

- **4000 Watt 360° glare-free** diffused lighting system
- **Seamlessly works** with the existing light tower electrical systems*
- **Integrated balloon fan** inside lamp housing instantly inflates balloon
- **Quick disconnect** electrical fittings
- **Excellent light coverage** of over 300 feet
- **Quick, easy set-up** and transportation
- **Meets DOT diffused lighting specifications**
- **Includes T-Bar mounting bracket** and all necessary hardware
- **Balloon is washable and repairable**

*Designed for Multiquip Light Towers. Contact technical support for assistance with other brands.
**The original GloBug 4-Spot** with a three-stage mast and four 400 watt lamps produces 1600 watts of illumination. Its rugged construction and power lighting will provide years of performance.

Each lamp can be independently oriented to best illuminate the work areas. The compact, mobile design provides flexibility for deployment in applications as varied as construction areas, industrial sites, special events and first response teams.

- **Powerful metal halide lamps** and small footprint make it ideal for use in confined or busy areas
- **Durable lamp housings** feature aluminum construction for longevity
- **Flexible power options** permit connection to local 120 volt power or a portable generator
- **Mechanically assisted 3-stage mast** extends to a maximum height of 13.7 feet
- **Rugged steerable cart** utilizes zinc-plated steel to prevent corrosion and large pneumatic tires permit easy on-site mobility
- **Versatile platform** allows secure mounting of most pipe-frame generators and includes center mount lifting bale
- **Stability assured** through mechanical foot brake and dual locking outriggers
- **Folds to tight 3.5" x 3' x 5.6' footprint** for transport and storage

This ultimate GloBug 4-Spot — with a four-stage mast and four 300 watt LED lamps — produces 1,200 watts of illumination. It combines powerful and efficient lighting with a quick and easy deployment. It’s ideal for many applications.

- Highly efficient LED lamps produce clean, clear light and deliver 40,000 hour service life
- Immediate lighting as lamps strike instantly with no waiting required at start-up or during re-strike
- Durable lamp housings feature aluminum and poly construction along with shatter-resistant lenses
- Flexible power options permit connection to local 120 volt power or portable generator
- Mechanically assisted 4-stage mast extends to a maximum height of 17 feet
- Rugged steerable cart utilizes zinc-plated steel to prevent corrosion and large puncture-proof tires permit easy on-site mobility
- Versatile platform allows secure mounting of most pipe-frame generators and includes center mount lifting bale
- Stability assured through mechanical foot brake and dual locking outriggers
- Folds to tight 3.6’ x 3.5’ x 6.8’ footprint for transport and storage

GBX8B

The GBX8B is a compact, self-powered diffused 800W LED Balloon Bag lighting system. This highly mobile unit is the perfect choice for residential, industrial, and commercial jobsite applications where glare-free lighting is desired.

- 1.6kW Inverter Generator
- Powerful 4-cycle, 3.5HP gas engine (EPA/CARB)
- 3 Gallon fuel tank — 18 HRS run time (full load)
- ECO Mode for fuel conservation and noise abatement
- 120V 13.3A external DUPLEX receptacle
- 800W No-Glare LED Balloon Lamp w/dimmer
- Lamps provide 3-stage dimmer control
- Overall compact design: 32” X 22” footprint
The GBX4S is a compact, self-powered, 2-Spot 400W LED cart-mounted lighting solution. The unit supports a multitude of residential, industrial, and commercial job site applications by providing exceptional low-glare illumination.

- **1.6kW Inverter Generator**
- **Powerful 4-cycle, 3.5HP (2.6kW) gasoline engine** EPA/CARB Certified
- **3 Gallon fuel tank** — 25.5 HRS run time (full load)
- **ECO Mode** for fuel conservation and noise abatement
- **120V 13.3A** external DUPLEX receptacle
- **(2) X 200W Low Glare LED Lamps**
- Lamps provide 3-stage dimmer control
- **Overall compact design:** 32” X 22” footprint
Superior mobile lighting - mounted on a compact mobile trailer, the GBX12SK provides brilliant LED lighting and offers over 200 HRS of operating time on a tank of fuel.

- **Trusted KUBOTA diesel engine** - EPA/CARB certified.
- **High efficiency LED lamps** - produce bright, clear 168,000 lumen projection lighting.
- **LED longevity and safety** - lamps provide 40,000 hours of operational life and permit immediate strike/re-strike capability.
- **Aerospace mast design** - Anodized aluminum 5-section telescopic mast provides strength and aggressive corrosion resistance.
- **Industrial trailer assembly** - rugged, compact layout that meets all DOT/NHSTA trailer and cabinet requirements.

GBX24BK LED Light Tower — An industry first - powerful 2400W LED diffused balloon bag lighting system mounted on a mobile trailer that delivers 399,000 lumen of light over a 225' circle.

- **Trusted KUBOTA diesel engine** - EPA/CARB certified.
- **Powerful Diffused LED Balloon** - produces brilliant, shadow-free 399,000 lumen projection lighting.
- **LED longevity and safety** - lamps provide 40,000 hours of operational life and permit immediate strike/re-strike capability.
- **Aerospace mast design** - Anodized aluminum 5-section telescopic mast provides strength and aggressive corrosion resistance.
- **Industrial trailer assembly** - rugged, compact layout that meets all DOT/NHSTA trailer and cabinet requirements.

Glare-free lighting provides safety benefits for work crews and vehicle traffic. Complies with DOT requirements for proper job site illumination.

### GB12BS

- **Model:** GB12BS
- **Lamp:** 400W Metal Halide
- **Lumens:** 34,000
- **Voltage (V):** 120
- **Current (A):** 4A @ 120V
- **Hertz (Hz):** 50-60
- **Balloon:** 33.5” x 21”
- **Mast:** (1) Straight pole; (1) 90° offset pole; (2) universal mounting clamps
- **Total height:** 6.1’
- **Total weight:** 35 lbs.
- **Wind Limits:** 25 MPH
- **Generator:** 450 Watts

### GBS

- **Model:** GBS
- **Lamp:** 1000W Metal Halide
- **Lumens:** 107,000
- **Voltage (V):** 120
- **Current (A):** 9.3A @ 120V
- **Hertz (Hz):** 50-60
- **Balloon:** 47” x 28”
- **Mast:** (1) Straight pole; (1) 90° offset pole; (2) universal mounting clamps
- **Total height:** 6.5’
- **Total weight:** 40 lbs.
- **Wind Limits:** 26 MPH
- **Generator:** 1,200 Watts

### GBMP

- **Description:** Mounting Plate Kit
- **Mounting Plate Kit:** Includes plate, 2 poles and hardware

### GBHM

- **Description:** Hitch Mount Kit
- **Hitch Mount Kit:** Includes adapter, 2 poles and hardware

**Note:** Supports all current production LED and Metal Halide GloBug balloon units.

GloBug equipment mount models provide versatile and complete lighting solutions. Each model includes the balloon light assembly, universal mounting clamps and mounting hardware.

The Mounting Plate accessory attaches to flat surfaces and is ideal for installation on construction equipment and trailers. The GBMP supports all E-ballast GloBug balloon lighting units.

The Hitch Mount bolts over 2” x 2” draw bars (Draw bar length must accommodate 5” of length). This attachment is perfect for utility and job-site vehicles. The GBHM supports all E-ballast GloBug balloon lighting units.
Multiquip offers a wide selection of balloon bags to support your GloBug applications. A multiple array of colored and reflective design options are available for the various metal halide and LED models.
