

MD80 RIDE-ON POWER TROWEL

THE NEXT GENERATION OF CONCRETE FINISHING HAS ARRIVED

The newest addition to our family of hydrostatic riders is engineered to deliver superior performance and hassle-free operation. A powerful 40 HP Vanguard engine provides the torque you need for panning and twin six-blade rotors take you through to the final finish.

- **Power Meets Precision:** A powerful engine and hydrostatic drive ensure consistent, reliable power transfer to twin 46" rotors for flawless concrete finishing.
- **Minimal Maintenance:** the MD80 eliminates traditional wear items like belts, clutches, and gearboxes—simplifying maintenance and reducing downtime.
- **Unmatched Finish:** Our innovative six-blade rotors deliver increased stability, improved weight distribution, and the smoothest, most precise finish in the industry.
- **Effortless Operation:** Hydraulic steering, cruise control, and electric pitch control work together to reduce operator fatigue and maximize productivity—making every job easier.
