

# MQ POWER acecube™

## PORTABLE FUEL SYSTEMS

**Introducing the MQ Power Acecube.** A rugged, intelligently designed line of banded steel tanks engineered for the safe, efficient storage and transfer of diesel fuel and DEF. Built for demanding job sites, trusted around the world.

**Three models with a wide range of capacities to fit any job.**

### DIESEL

**Capacity Range:** 250 – 792 gal

Durable banded tank featuring a two-tier design with a removable inner tank, four stacking corners, primary hatch lid, and integrated forklift base for easy handling and secure storage.

### DEF

**Capacity Range:** 211 – 436 gal

Purpose-built for DEF storage, this fully self-contained tank includes integrated dispensing equipment, corrosion-resistant materials, and compact design for reliable transport and site use.

### DIESEL + DEF

**Capacity Range:** 180 – 1,071 gal

**DEF:** 32 – 66 gal

Dual-compartment tank system designed for safe, simultaneous storage of diesel and DEF. Combines a rugged build with efficient fluid separation and ease of transport.

**Get the fuel storage solution your job demands. Contact us today.**
