MQ
MULTIQUIP[®]

multiquip.com

Model: TB800BAT

Hydraulic dumping,
EasyClean™ tub for
accurate and effortless
material placement

Folding platform for flexibility
as both a ride-on and walk-
behind buggy

Articulating joint for ultra-tight
turning and enhanced safety
over rugged terrain

The **MQ Zero TuffTruk TB800BAT** is a battery-powered hauler built for demanding job site conditions. It delivers **strong torque, dependable runtime, and zero emissions** for **indoor or outdoor work**.

With a **15.5 cubic foot tub** (12.5 cu. ft. for concrete) rated to **1,800 lbs** and up to **8 hours of runtime**, it moves heavy material quickly with less crew strain and fewer slowdowns.

Designed for interior demolition, concrete work, environmental cleanup, landscaping, utility projects, and general material handling.

Wherever crews are pushing heavy loads, **TuffTruk keeps production on pace**.

- **Rechargeable battery** delivers up to 8 hours of runtime with quiet, zero-emission operation.
- **Regenerative braking** improves efficiency and extends runtime.
- **Durable polyethylene tub** built to handle abrasive materials and daily punishment.
- **Hydraulic power dump** for fast, controlled unloading.
- **Power-assist steering** for confident control.
- **Articulating joint** provides precise maneuvering in tight areas.
- Slim **35.2 inch width** fits through narrow paths and interior access points.
- Forward and reverse speeds up to 3.8 mph for **faster movement across the job site**.
- **Low noise levels** allow work in noise-sensitive environments.

Model: TB12PE/SE

The compact **TB12** is ideal for interior demolition, environmental remediation, general construction, landscaping, and utility work.

A COMPACT WORKHORSE

- **Rechargeable battery** delivers up to 8 hours of runtime with quiet, zero-emission operation.
- **Regenerative braking** improves efficiency and extends runtime.
- **Durable steel (SE) or polyethylene (PE) tubs** built to handle abrasive materials and daily punishment.
- **Hydraulic power dump** for fast, controlled unloading.
- **40° articulating joint** provides precise maneuvering in tight areas.
- Slim **33.4 inch width** fits through narrow paths and interior access points. *Optional 5.16ft³ tub allows access through 32-inch openings.*
- **Low noise levels** allow work in noise-sensitive environments.
- **Adjustable handle** for operator preference and comfort.
