

## Transforming articulation.

MQ's articulating trench roller is now more reliable than ever. The Rammax RX1575 is designed to meet contractor expectations for performance and durability. Loaded with all the features you need, the RX1575 articulates confidence.

Flexible drum options include easy to remove drum rings that adjust from 33" to 24" working widths or 33" solid drums.

Compaction performance and increased stability on uneven surfaces with a maintenance free oscillating articulation joint.

**Gain traction on tough material** with steel padded drums and four scrapers.

Increased control in all terrain conditions with a wireless remote transmitter covering a wider operational area & two ideally positioned receiver eyes.

5 Charge the remote control battery with a solar panel or cable connector.

Total safety concept reduces job site hazards. Visual contact is required between remote transmitter and receiver eyes. Roller automatically stops within 8 ft. (2.5m) of the operator.

**Powerful Yanmar diesl engine** liquid cooled, 3 cylinder engine is EPA Tier 4 compliant. Delivers exceptional performance even in high altitude applications.

Able to withstand rugged work
environments and steer quickly and
precisely with two steering cylinders.
Easy access to all maintenance points

with fold-up front and rear covers.

### Unique oscillating articulation joint

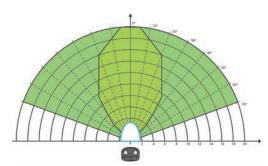

provides optimum traction and compaction on uneven surfaces. It also improves operational stability and reduces tip over risk.

A highly fuel efficient Yanmar engine idles automatically after 15 seconds of no load. Operating run-time can reach up to 11.5 hours with a 7.4 gallons diesel reservoir consuming only 0.74 gal/hr. Electronically adjusts fuel delivery to maintain optimum performance, even at high altitudes.

Infrared (IR) control system optimized for both operator safety and functionality. Requires visual contact with the machine for operation. Simplify fleet management by pairing transmitter to roller in seconds via cable connector. Blocks out signals from other machines on the job.

Ideally positioned IR receivers provide a wide operating range up to 66

operating range up to 66 feet at a 70 degree angle eliminating virtually any dead spot.

### **Service Friendly**

**Hydraulic Hose Network** Easily accessed through the drums with no special tools required. All hoses are routed to prevent wear and numbered for easy identification.

#### Frame Layout

Convenient access to both compartments places battery, filters, oil fills, fluid drains and hydraulic hoses within reach reducing time spent on scheduled maintenance.

#### **Exciter Design**

In maintenance free exciter shafts with oversized bearings and single cast construction to maximize service life.

### **SPECIFICATIONS RX1575 SERIES**

Performance Data	RX1575	RX157533	
Centrifugal Force-Ibs (kn)	16,860 (75	16,860 (75) HIGH	
	8,430 (37.5) LOW		
Vibration Frequency - vpm (hz)	2,460	2,460 (41)	
Amplitude - in (mm)	0.043 (1.1) HIGH		
	0.024 (0.6) LOW		
Travel Speeds - ft/min (m/min)	148 (45) HIGH 82 (25) LOW		
Max Grade w/w-out vibration	25/3	0	
Inside Turning Radius - in (mm)	61 (1,541)	57 (1,436)	
Outside Turning Radius - in (mm)	86 (2,191)	90 (2,286)	
Engine			
Engine Make/Model	Yanmar 3	Yanmar 3TNV80	
Engine Power-hp (kw)	20.4 (15)		
Operating Speed - rpm	2,400		
Diese <mark>l Fuel Tank Capacity</mark> - gal (I)	Multicle RAM 7.4 (28)7		
Hydraulic Oil Tank-gal (I)	4.2 (16)		
Weights and Dimensions			
Overall Width - in (mm)	24 (610)	33 (850)	
Overall Length - in (mm)	78 (1,980)		
Overall Height - in (mm)	52 (1,317)		
Operating Weight - lbs (kg)	3,087 (1,400) 3,197 (1,450)		
Features			
Wireless Remote	Infrared		
Range of Infrared Operation - ft (m)	65 (20)	65 (20) MAX	
	8 (2.5) MIN		
Range of Cable Connected Operation - ft (m)	13 (4) MAX		
		8 (2.5) MIN	
Remote Control Charging	Solar & Electric		
Cable Connector		Standard	
Shutdown Safety Bar	Optional		
Removable Drum Rings	Optional	NA	

# CONFIDENCE

**5 Years** - Bearings, Drive Motor and Eccentric Housing Assemblies **3 Years** - Yanmar Engine

2 Years - Basic Machine Parts & Labor
