SPRAY ON CONDENSIFIER

SlabArmor™ Closer dust proofs and hardens concrete in a single application. The low pH qualities provide better hardening characteristics and an attractive, longer lasting finish ideal for warehouses, distribution centers and retail stores. This spray on, leave on material is a fast acting formula allowing for minimal down time.

It is suitable for use on cementitious based products and can be used in conjunction with diamond polishing and/or decorative color.

SlabArmor™ Closer extends material life by closing capillaries within the slab, reducing surface abrasion and creating a sustainable surface profile.

TRANSFORM YOUR SLAB

Attain levels of gloss and reflectivity you never thought possible with power trowels. Save time and money by compressing your project timeline and completing ahead of schedule. Achieve results that last while reducing maintenance expenses and upkeep requirements over the life of the slab.

EarthSmart™

MQ Whiteman Concrete Solutions are environmentally neutral compositions. Finish your job secure in the knowledge these products pose no risk to crew members or the environment. A benefit on jobs with LEED requirements.
