CONDITION&RESTORE

SlabArmor™ Plus Condition&Restore is a high performance neutral pH cleaner and restorer designed especially for concrete floors that have been treated with SlabArmor™ and SlabArmor™ Plus products. Only SlabArmor™ Plus Condition&Restore will clean and renew the luster of the SlabArmor™ floor maximizing its value and long term benefit. This proprietary formula cleans and restores the surface condition by depositing micro droplets of rebuilding blocks on the surface. These building blocks are then absorbed into the floor and react improving the surface condition over time therefore reducing the frequency of recoating surfaces protected with SlabArmor™ Plus Seal&Shine. Designed for use in auto scrubbers, and hand mopping equipment, SlabArmor™ Plus Condition&Restore is recommended as a daily use cleaner in high wear areas to provide additional benefits in clarity and longevity and may be used liberally without concern of dulling the floor surface and will not streak or leave a residue on cleaned surfaces. Floors cleaned with SlabArmor™ Plus Condition&Restore on a consistent basis will stay cleaner, remain clearer, and have more luster all while lowering the cost of your floor care.

MAINTAIN YOUR SLAB
