

MQ WHITEMAN

The world's number one selling trowels for over 75 years.

MQ MULTIQUIP

MQ WHITEMAN POWER TROWELS

YOU BE THE JUDGE. Power trowels are measured by their performance, and by that standard, **MQ Whiteman** is the undisputed leader. Year after year, our power trowels continue to be the number one choice of the concrete industry. With over 75 years of engineering experience, no other manufacturer can match our quality, reliability or performance.

B-Series

46" (1170mm) Width

The Classic.

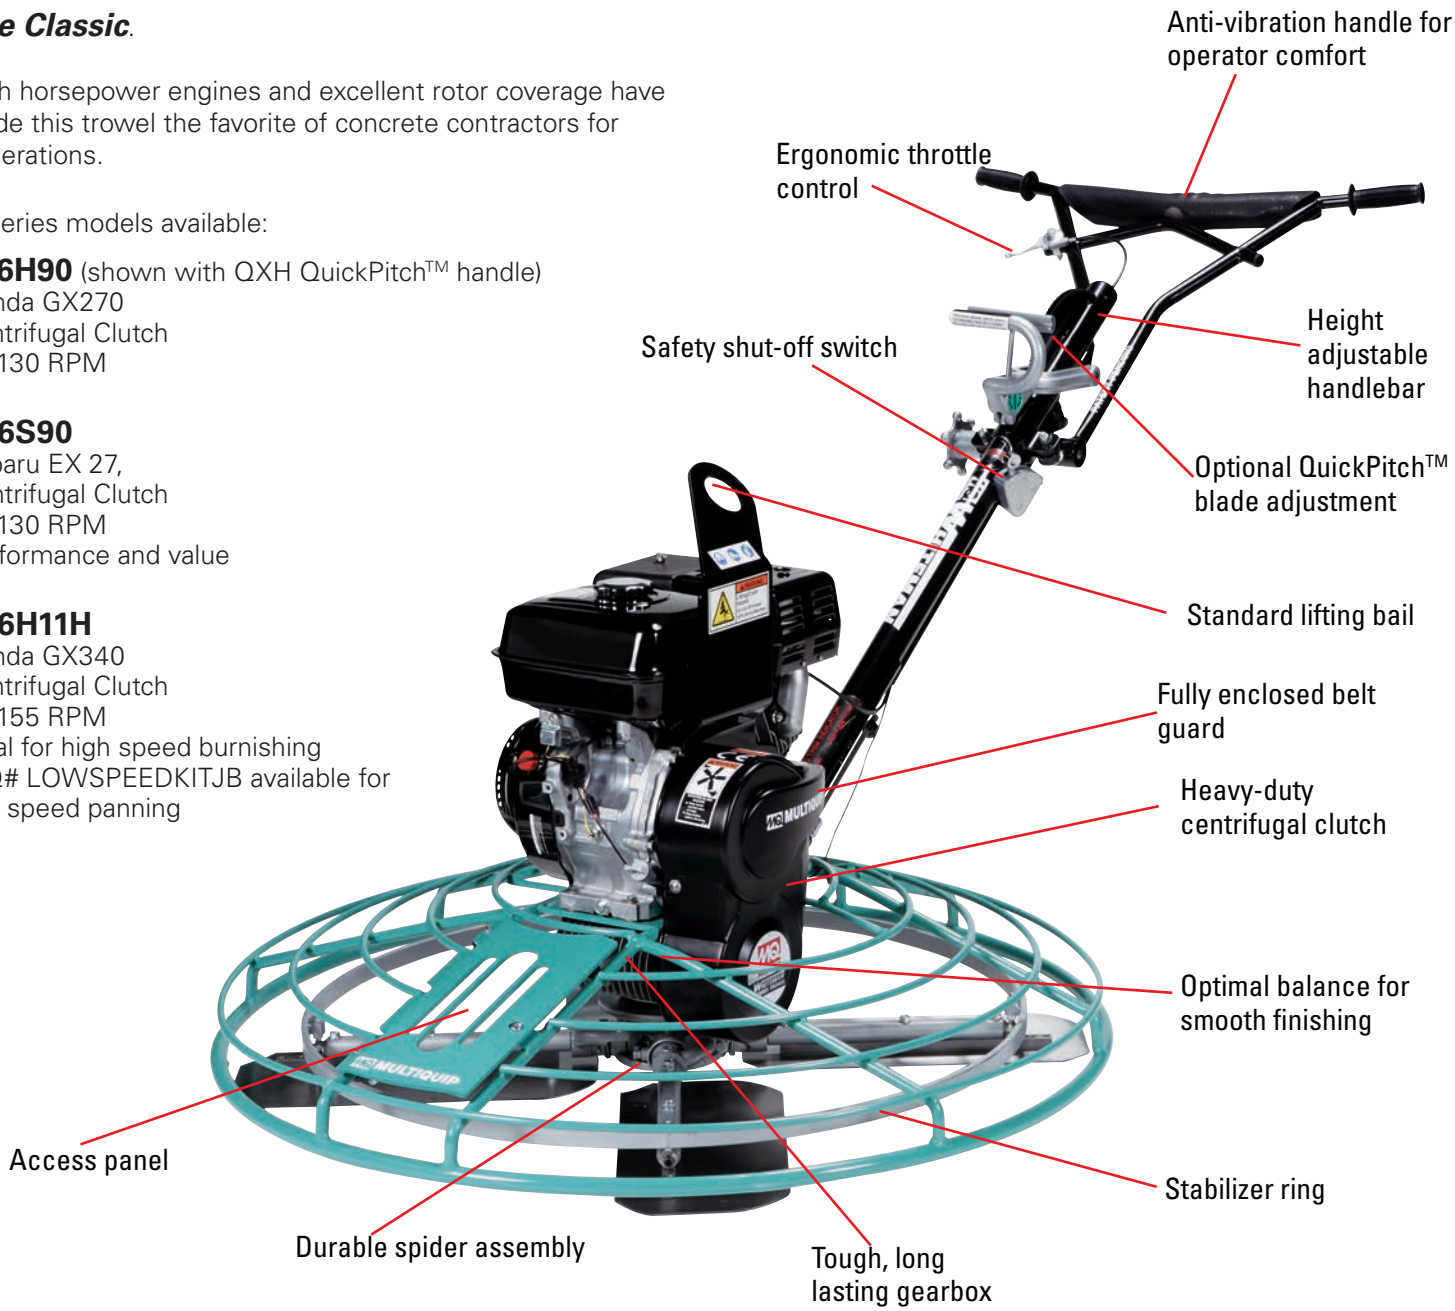

High horsepower engines and excellent rotor coverage have made this trowel the favorite of concrete contractors for generations.

B-Series models available:

B46H90 (shown with QXH QuickPitch™ handle)
Honda GX270
Centrifugal Clutch
60-130 RPM

B46S90
Subaru EX 27,
Centrifugal Clutch
60-130 RPM
Performance and value

B46H11H
Honda GX340
Centrifugal Clutch
90-155 RPM
Ideal for high speed burnishing
MQ# LOWSPEEDKITJB available for low speed panning

MQ MULTIQUIP

Top quality components. Concrete contractors demand reliable equipment to get the job done right. The MQ Whiteman gearbox uses a heat-treated worm gear and composite bronze gear to ensure that your machine isn't sidelined during a critical job.

Routine maintenance is simple and economical. Our spider assembly uses high-strength wear plates made of trowel steel to prevent wear on key components. Repairing your trowel shouldn't be costly so we make certain our replacement parts are priced right.

MQ Whiteman Gearboxes are the Industry's Best — heavy-duty design for years of trouble-free service.

Upper Wear-Plate
Manufactured of trowel steel to prevent bearing wear.

Thrust Collar Assembly
Sealed Thrust Bearing for years of trouble-free service.

Bronze Bushing
Eliminates wear on the thrust collar and spider, providing tighter running tolerance.

Lower Wear-Plate
Prevents wear on thrust collar surface

Spider Trowel Arm Bushings
Replacement of these high tolerance bushings assure like new trowel arm alignment.

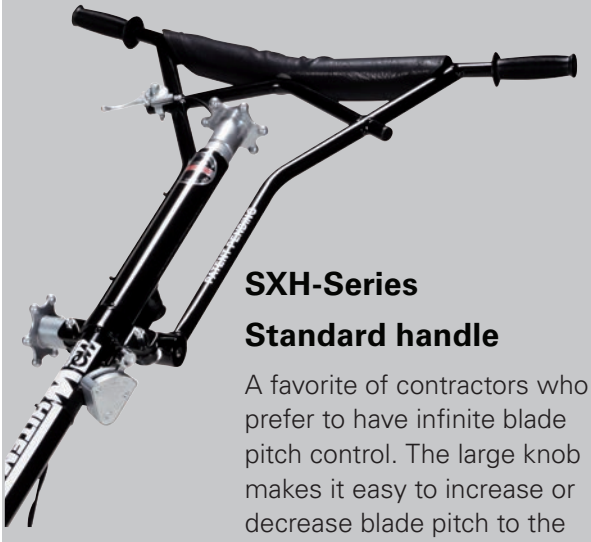

Get a grip on the best. Our new anti-vibration handle design dramatically reduces the vibration transmitted to the operator. These height-adjustable handles will increase operator comfort and decrease fatigue over an eight-hour day. This feature is standard on both the QuickPitch™ and Standard knob handle.

Unless otherwise specified, handles are sold separately.

QXH-Series
QuickPitch™ handle

A patented spring-loaded design enables the operator to react rapidly to changing concrete conditions. Blade pitch is increased or decreased in 1/8" increments by moving the latching lever back and forth.

SXH-Series
Standard handle

A favorite of contractors who prefer to have infinite blade pitch control. The large knob makes it easy to increase or decrease blade pitch to the desired angle.

MULTIQUIP

Power trowels for use in confined or enclosed areas.

C-SERIES

C-Series
24" (610 mm) Width
Rotating Guard Ring

The C-Series trowel features a rotating guard ring to reduce manual labor while edging. It enables the operator to finish within 3/16" of obstructions. The high capacity gearbox delivers big machine performance in a small package.

C-Series models available:

CA4HC (shown with STHAC handle)
Honda GX120
70-130 RPM
Centrifugal Clutch

CA4HM
Honda GX120
Easy operating Manual Clutch
70-130 RPM
Includes folding QuickPitch™ handle

Also available with QPHAFC
Folding QuickPitch™ handle

ELECTRIC

J36E2
36" (914 mm) Width
115/230V 60Hz Motor
Adjustable Variable Speed Clutch
30–160 RPM
Includes Standard Pitch Electric handle
(QuickPitch™ handle not available)

The J36E2 is capable of meeting all your finishing requirements from pan floating to high-speed finishing. Powered by a 2.0 HP electric motor it is ideal for enclosed areas such as laboratories, food processing plants and areas where exhaust fumes or noise

MULTIQUIP

J-Series
36" (914 mm) Width

The **J-Series** incorporates amazing balance, improved serviceability, and your choice of a Standard or QuickPitch™ handle, providing contractors with the ideal machine for residential and general construction work.

J-Series models available:

J36H55 (Shown w/Optional SXH Standard handle)
Honda GX160
Centrifugal Clutch
60-115 RPM

J36S60
Subaru EX 17
Centrifugal Clutch
60-115 RPM
Combining performance and value

J36H90H
Honda GX270
Centrifugal Clutch
90-155 RPM
Ideal for high speed burnishing
MQ# LOWSPEEDKITJB available for low speed panning

Trowel handles sold separately unless otherwise noted.

Access panel for quick, easy access to trowel arms for maintenance.

MULTIQUIP

HD-SERIES

The **HD48** is designed for jobs that require a heavy trowel with high speed burnishing capabilities – up to 225 RPM

HD-Series
48" (1219 mm) Width
Maximum Performance

The HD-Series is an extra-rugged, heavy-duty power trowel designed and built for those tough jobs. Incorporating our HD gearbox and a specially tuned CVT drive system this trowel provides superior performance.

HDA48413H
(Shown QXHD QuickPitch™ handle)
Honda GX390
CVT (Constantly Variable Transmission)
35-225 RPM

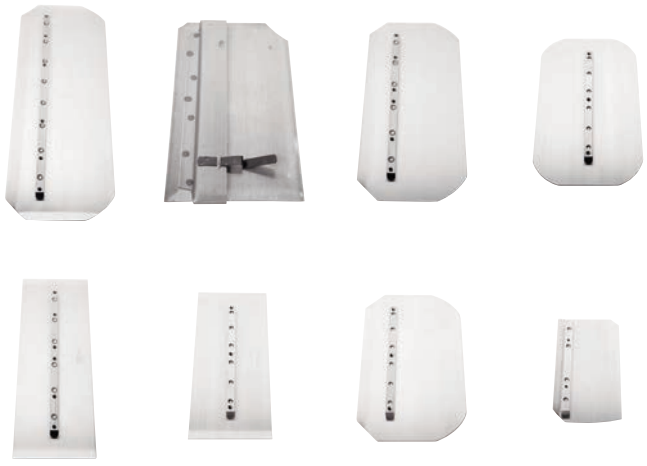

BLADES AND PANS

MQ Whiteman blades are made of heat-treated trowel steel, formulated to our specifications for maximum wear resistance and long life. Our blades are manufactured with additional rivets for greater uniformity and torsional strength. This increases machine stability and produces a smoother, flatter finish.

Enduro Blades use heavier gauge steel to achieve up to 50% longer life than conventional trowel blades. They are ideal for heavier walk-behind trowels and ride-on trowels. Quick Change Blades offer a simple, fast alternative to bolt-on blades. A reuseable mounting bar and channel mount blade system allows replacement of blades in minutes without the use of tools.

Some brands of trowel blades on the market today may resemble the **MQ Whiteman** blade, but none comes close in quality, attention to detail and overall value.

Stay with the leader by using genuine **MQ Whiteman** pans and trowel blades.
